 We learn this mitzvah from Parshas Vayikra: (ויקרא ד:יג)

וְאִם כָּל עֵדַת יִשְׂרָאֵל  
יִשְׁגּוּ וְנַעֲלִם דְּבַר  
מֵעֵינֵי הַקֹּהֵל

If the *Sanhedrin* makes a mistake and tells Yidden they are allowed to do something that is really an *aveira*, they need to bring a *korban*.

 The details of this mitzvah are explained in Mishnayos & Gemara: Mesechta Horayos, and a few places in Mesechta Zevachim

 We learn this mitzvah from Parshas Metzora: (ויקרא טו:כח-כט)

וְאִם טָהָרָה מִזֹּבָה וְגו'  
וּבַיּוֹם הַשְּׁמִינִי תִקַּח לָהּ  
שְׁתֵּי תְרִים

If a woman becomes *Tomei* with a kind of *Tumah* called “*Zavah*” she can’t become *Tahor* enough to eat from *korbanos* until she brings a *korban* of two birds.

 We learn this mitzvah from Parshas Tazria: (ויקרא יב:ו)

וּבַמְלֵאת יְמֵי טָהָרָה  
לֶבֶן אֹרֹג לְבַת תָּבִיא  
כֶּבֶשׂ בֶּן שָׁנָתוֹ וְגו'

When a mother has a baby, she becomes *Tomei*. In the times of the *Beis Hamikdash*, she would bring a special *korban* to become fully *Tahor* again (a sheep and a bird, or two birds if she is poor). Until then, she can become *Tahor* enough for most things, but not enough to eat from *Korbanos*.

## Rambam: Hilchos Shegagos, Hilchos Mechusrei Kaparah

### PEREK TES-VOV

This *perek* explains what happens if a *Kohen Gadol* or a king does an *aveira* — they need to bring a different kind of *korban*.

### PEREK ALEF

We learn what “*Mechusrei Kapara*” means — it means someone who is not 100% *Tahor*, because they did not bring their *korban* yet. There are 4 kinds of people who can be *Mechusrei Kapara*: A *Zav* (a man with a kind of sickness that makes him *Tomei*), A *Zavah* (a woman with a kind of sickness that makes her *Tomei*), a woman who had a baby, and a person with *Tzoraas*.

### PEREK BEIS

Now we learn about the kind of sickness that can make a man a *Zav*. If it happens once, he is *Tomei*. If it happens twice, he is a *Zav*. If it happens three times, he for sure needs to bring a *korban*.
