#246

 We learn this mitzvah from Parshas Shoftim: (דברים יט:ד)

לֹא תַסִּיג גְבוּל רֵעֶךָ

The first *mitzvah* we learn today is a *mitzvah* for Eretz Yisroel: That we're not allowed to move a fence so that people will think that part of another person's field belongs to us.

Of course, we are not allowed to steal anywhere! But it gets its own special *mitzvah* only in Eretz Yisroel.

 We learn this mitzvah from Parshas Yisro: (שמות כ"ג)

לֹא תִגְנֹב

The second *mitzvah* is one of the *Aseres Hadibros* — don't kidnap. The words in the Torah sound just like regular stealing, but the *Chachomim* tell us that here it means that we can't steal a PERSON, by kidnaping him and selling him.

 The details of this mitzvah are explained in Mishnayos & Gemara: Mesechta Sanhedrin perek Yud-Alef

Rambam: Hilchos Geneivah

PEREK ZAYIN

The weights we use to measure things to sell should be exactly right.

If the weights are even a drop too small, the seller will be stealing from the person who paid him for the full amount!

PEREK CHES

This *perek* explains the *halachos* of how a scale should be made, and how often it should be cleaned.

PEREK TES

This *perek* teaches us when someone who kidnaps is punished by the *Beis Din*.
